

PRISMA 2020 flow adapted to dataset records

Search completed 21 August 2026

Identification

Dataset records identified

GEO, n = 263
ArrayExpress, n = 54
PubMed-discovered accessions, n = 57
Total, n = 374

Screening

Dataset records screened

Unique records, n = 322

Eligibility

Dataset records sought and assessed

Full accession/sample metadata, n = 53
Reports not retrieved, n = 0

Included

Dataset records included

11 GEO Series representing
9 independent source studies

Primary synthesis

3 independent glomerular sources

Removed before screening

Duplicate dataset records, n = 52

Records excluded

Title/summary stage, n = 269

Records excluded after assessment

n = 42
Ineligible contrast/specimen/assay,
experimental model, or duplicate source
